

Every potential client receives one hour of free research so that I can assess the situation. After that, and assuming that we both wish to proceed, there are a number of options for you to choose from. However, we can discuss the fine detail of what you require and adapt the fees accordingly.

### ***Time-based research***

£20 per hour for research,  
for a minimum of 3 hours

Any documents required to complete the research  
will be charged at cost price.

A PDF report will be delivered by email.

A printed report can be posted to you, but this will  
incur an additional charge.

### ***20<sup>th</sup> Century Portfolio (£250)***

You will receive a report which traces the ancestors  
of either you or a relative chosen by you back to the  
period between 1900 and 1930.

Any birth, marriage and death certificates deemed  
necessary are included in the price.

### ***18<sup>th</sup> and 19<sup>th</sup> Century Portfolios***

I will trace the direct ancestors (and their siblings) of  
an individual who was born between 1900 and 1930.

Any birth, marriage and death certificates deemed  
necessary are included in the price.

One ancestral line ([see example](#)): **£350**

Two ancestral lines ([see example](#)): **£600**

All ancestral lines: **£1100**

The examples shown above only show what is  
meant by a 'line'. The report will detail as much  
as can be discovered of their lives.

---

Each of the Portfolio options include one printed,  
bound and posted copy in the price stated.  
Additional printed bound copies can be arranged;  
please ask for details.
